

Melat Tekie

mhaile2728@gmail.com | 218-979-0343 | github.com/MelatTekie | Dallas, TX (Open to Remote / Relocation)

SUMMARY

Technical professional with 5+ years of experience spanning web development, QA, and hands-on client/stakeholder support, plus a Master's in Business Analytics and a CS degree. Combines strong front-end and platform development skills (SharePoint, Sitecore, Power Platform) with a track record of translating technical work for non-technical stakeholders — gathering requirements, building prototypes, and troubleshooting issues directly with end users. Recently led an independent full-stack build (Next.js, Astro, Supabase) from architecture through client delivery, including onboarding and mentoring another developer through a full Git/GitHub workflow. Seeking a technical, client-facing role — Solutions Engineering, Applied AI, or Technical Support — where deep technical troubleshooting meets direct communication with users and stakeholders.

WORK EXPERIENCE

Web Design Analyst II — Christus Health

Aug 2023 – Present

- Serve as the technical liaison between internal stakeholders and IT, gathering requirements and translating them into working SharePoint web parts and Power Platform solutions
- Perform QA testing across live applications and websites, identifying and resolving functional and usability issues before release
- Design prototypes and wireframes in Figma to align stakeholder expectations with technical implementation prior to development
- Automate manual business processes using Power Automate, reducing repetitive workload for internal teams
- Author governance architecture and standards for Power Platform development across the organization

Graduate Research Associate II — University of Texas at Arlington

Feb 2022 – May 2023

- Developed and maintained Sitecore CMS components supporting university web infrastructure
- Built open-doors reporting dashboards using Power BI, Python, and Excel for university stakeholders
- Improved website performance and SEO using Siteimprove, working cross-functionally with content owners
- Conducted functionality and usability QA testing across department websites

Financial Reporting Analyst — Razor Consulting Solutions (Microsoft Contractor)

Nov 2019 – Jun 2021

- Analyzed quarterly financial reports using advanced Excel tooling and formulas for enterprise stakeholders
- Built Macros to automate recurring reporting processes, reducing manual turnaround time
- Produced reports using SQL, SAS, Python, and Power BI, working directly with large datasets and SQL servers
- Fulfilled ad hoc stakeholder data requests under tight turnaround windows

Software Developer — True|IT

May 2019 – Oct 2019

- Developed and supported iOS applications using Objective-C and Xcode
- Integrated an e-commerce platform with Klaviyo using PHP
- Built on Microsoft Dynamics 365 CRM using C#, Java, and jQuery
- Integrated ConnectWise with third-party ticketing systems via the ConnectWise SDK and REST API

Associate Software Engineer — Sundog Interactive

Oct 2018 – Apr 2019

- Developed solutions using Apex and JavaScript on the Salesforce CRM platform
- Participated in daily standups and Scrum ceremonies within an agile development team
- Managed support and feature request tickets using Jira

INDEPENDENT PROJECT — FULL-STACK CLIENT PLATFORM

Founder / Developer, Portfolio Agency — 2026

- Architected and built a client-facing Next.js ordering platform end-to-end, including a live Supabase backend, dynamic pricing calculator, and inquiry capture flow

- Built a dynamic, JSON-driven portfolio system in Astro, designing a reusable data model adopted across multiple client profiles
- Onboarded and mentored a junior developer through the full software lifecycle — authored a detailed technical guide covering environment setup, Git branching, and pull request workflows
- Ran client-facing discovery and review meetings, translating stakeholder feedback (design direction, business requirements) into a phased technical build plan
- Diagnosed and resolved authentication, version control, and environment configuration issues independently, including Git history remediation and GitHub access/permissions troubleshooting
- Deployed and managed infrastructure using Vercel, GitHub, and environment-based configuration for a production client site

EDUCATION

Master of Science in Business Analytics — University of Texas at Arlington

Aug 2021 – May 2023 | Graduate Research Associate II | Wayne Watts Fellowship

Bachelor of Science in Computer Science, Minor in Psychology — Minnesota State University Moorhead

Aug 2014 – May 2018 | Magna Cum Laude, GPA 3.69 | Dean's List, 7/8 Semesters

TECHNICAL SKILLS

Languages: Python, C#, C++, JavaScript, PHP, SQL, R, HTML/CSS

Frameworks & Platforms: Next.js, Astro, .NET / .NET Core, Laravel, React

Cloud & Infrastructure: Vercel, Supabase, Azure, Git/GitHub

CRM & CMS: Salesforce, Dynamics 365, Sitecore, SharePoint / Power Platform

Data & Reporting: Power BI, Python, SQL, SAS, Excel

Design & QA: Figma, Siteimprove, QA/Usability Testing

VOLUNTEERING & LEADERSHIP

- **Code Ninja, Fargo** — Mentored 4th-grade students in Scratch programming, building early analytical thinking and interest in software development
- **Lewis & Clark Elementary, Fargo** — Weekly volunteer supporting struggling readers in first grade
- **Housing, MSUM** — Supervised a team of 13 student workers across large-scale construction projects
